

Textile Art International Triennial Texpoart proposes, as in its previous editions, to offer artists an opportunity to exhibit their artworks, without the inherent hierarchy implied by any prize award. The theme of this edition is HYBRID, starting from the idea that all contemporary creations are the result of a fusion, of a blend between tradition and modernity, conventional and unconventional materials and techniques, between different concepts that animate the artistic scene, reunited in currents and trends. Thus, any artwork is a hybrid between the artist's talents, with his own scale of values, and the influences of society that leaves a mark, more or less subtle, on the final work. The artists are invited to debate, with the means and mediums characteristic to the textile art, the theme of hybrid that defines all the aspects of the contemporary life.
